

DAT 103: Anatomy and Physiology for Dental Assisting

This course is designed to provide study of anatomy and physiology of the head and neck and a basic understanding of body structure and function. Emphasis will be placed on tooth and root morphology, and embryological and histological correlations. It provides a foundation essential to an understanding of dental health. Upon completion, students should be able to discuss and identify the basic structure and function of the human body specifically the head, neck, and dentition.

Credits: 3

Lab Hours: 0

Lecture Hours: 3

0

Prerequisites:

Admission to DAT program, permission of instructor, appropriate grade.
