

# Associates Degree Outcomes

Within the associates in arts and the associates in science degree programs at Coastal Alabama is a core of courses designed to provide general skills and broaden the students' perspectives, resulting in the following general education competencies:

## **General Education Competencies**

**Communication:** Effective communication in academic, work, community, and social settings occurs when the intended message is successfully delivered, received, and understood between two or more persons.

**Critical Thinking:** A competent critical thinker processes and evaluates information carefully and then applies reasoning in the use of that information to make a decision and employ an action.
