

AVIATION MANUFACTURING TECHNICIAN

Short-Term Certificate – STC AMT

Program Location: Alabama Aviation Center at Brookley Field

Length: One-Two Semesters

This program prepares the student for entry into an aviation maintenance related field by providing foundational administrative and mechanical skills with an emphasis on sheet metal structural practices.

This is a career program designed for students to go directly into the labor market upon completion. Although some of the courses in this program will transfer to four-year institutions, this program is not designed to be a transfer program of study; therefore, it is not subject to the terms and conditions of STARS.
