

Degree Plans

Coastal Alabama Community College proudly offers and awards the Associate in Arts, Associate in Science, and Associate in Applied Science degrees. The student's degree plan identifies information such as courses required for degree, elective courses taken, courses registered for but not successfully completed, placement test scores, and GPA data. The degree plan will assist Coastal Alabama students in monitoring their degree completion. Within each degree, we offer specific programs of study with academic semester maps for students to follow. These programs of study with academic semester maps list each course that is required in the student's program toward the degree, the courses that have been completed by the student, and the courses that the student needs to take.
