

Facilities and Finances

For all courses, including distance learning courses, all students have access to the College's learning management system. Coastal Alabama Community College licenses 24/7 support access to the learning management system for employees and students to receive assistance with learning management technical support issues. A Technology Services Help Desk is also provided during published hours. In the event that a student does not have adequate Internet access from his/her home and lives within the College's service area, the College is equipped to provide access to course curriculum from any of the College's locations.

The College provides adequate funding for faculty, staff, services, and technological infrastructure to support the methodology of Distance Education through annual budget reviews and strategic planning for Distance Education. The budget is scalable as student enrollment and needs for services increase.
