

Traumatic Brain Injury (TBI)

A comprehensive evaluation report by a rehabilitation counselor, speech-language pathologist, orthopedic specialist, and/or neuropsychologist (or other specialist as appropriate), including:

1. Assessment of cognitive abilities, including processing speed and memory
2. Analysis of educational achievement skills and limitations (reading comprehension, written language, spelling, and mathematical abilities)
3. Defined levels of functioning and limitations in all affected areas (communication, vision, hearing, mobility, psychological, seizures, etc.)
4. Current treatment and medication
5. Current letter/report (post-rehabilitation and within 1 year), dated and signed
6. Recommendations to address functional limitations
