

University Agreements and Partnerships

Coastal Alabama has articulation and transfer agreements with all public four-year universities and most private four-year universities in Alabama. To learn more, visit the Statewide Transfer Articulation & Reporting System (STARS). The access guides help students prepare to transfer to a four-year university. Also, students graduating from Coastal Alabama Community College with an AA, AS, AAS or related course work in listed areas may transfer designated courses and continue their education to complete a Bachelor's Degree. These agreements and partnerships are designed to assist Coastal Alabama Community College graduates with program options that provide credit equivalency in mutually agreed upon curriculums:
