

# 3 D Animation and Virtual Production (AAS-AVP)

## Program Location: Fairhope Campus

### Applied Technology Division

Length: Four Semesters

This program is designed to prepare students for entry-level positions in 3D Animation and Visual Effects. The program enables the discovery, stimulation, development and demonstration of students' true creative potential within the context of a real 3D production situation. Students will also experience stimulating creation and production situations similar to those found in the industry. At the end of the program, students will have created a professional portfolio of their work in digital creation, according to industry standards and using the full potential of the latest technologies.

### ADMISSION REQUIREMENTS:

Prospective students must possess appropriate and relevant experience as determined by the Animation and Visual Effects advisor and complete the Coastal Alabama Application process.

This is a career program designed for students to go directly into the labor market upon completion. Although some of the courses in this program will transfer to four-year institutions, this program is not designed to be a transfer program of study; therefore, it is not subject to the terms and conditions of Alabama Transfers state transfer and articulation reporting system.
