MANAGEMENT SUPERVISION TECHNOLOGY, A.A.S.

Applied Technologies Division

Length: Four Semesters

The Associate in Applied Science degree in Management and Supervision Technology is an occupational degree, which introduces the principles of management and supervision, accounting concepts, and small business development skills. The program is designed to enable graduates of the program to enter lower level management and accounting positions and prepare individuals for small business management.

This is a career program designed for students to go directly into the labor market upon completion. Although some of the courses in this program will transfer to four-year institutions, this program is not designed to be a transfer program of study; therefore, it is not subject to the terms and conditions of STARS.

Program: Management Supervision Technology

Type: A.A.S.
